

GPS Tracker OBL1

1. (Battery 10 hours) battery life and accuracy of the device
2. The device is equipped with a high-precision GPS module and a 1000mAh battery. The device is equipped with a high-precision GPS module and a 1000mAh battery.
3. The device is equipped with a high-precision GPS module and a 1000mAh battery. The device is equipped with a high-precision GPS module and a 1000mAh battery.
4. The device is equipped with a high-precision GPS module and a 1000mAh battery. The device is equipped with a high-precision GPS module and a 1000mAh battery.
5. (LED).

GPS Positioning

Faster searching & locating speed realizes more accurate bike locating

Automatic & scan code to unlock

Automatic unlock, Lock by hand Individual QR code

Long battery life

8000mAh battery and intelligent power management ensure 60 days work time

Stable & durable hardware

100,000 locking and unlocking tests witness its stable performance

OTA

Easy to update the GPS lock remotely

Efficient unlocking

BLE technology ensures efficient and reliable unlocking

Construction Parameters

Model	OBL1 (Standard)
Dimensions (mm)	196*150*65(3 hole distance)
Weight	1.2g
Material	ABS plastic, IP67, 10 years warranty, 10 years warranty, 10 years warranty, 10 years warranty, 10 years warranty
Working mode	Standard
Working time	Standard
Working temperature	2402-2480 MHz
Working frequency	6000 MHz, 8000/9000 MHz
Working voltage	Standard
Working current	2 ~ 3 mA
Working humidity	-40 ~ 85% RH
Working pressure	-20 ~ 65 mmHg
Working protection	IP67 (Standard 30 min, 30 min, 30 min, 30 min, 30 min)
Working accuracy	5%-95% accuracy
Working LED (Standard)	Standard
