# Customized Services

Offering customization services for Color, Logo, APP, and SIM Card.

## Customization of logo and colors

## Custom APP Development

## Custom SIM Card Installation

Embedded chip integration  
(Non-removable)

Back cover SIM card installation  
(Replaceable)

# Product Specifications

---

Input Voltage	4.9-5.5VDC
Input Current	$\geq 1000\text{mA}(5\text{VDC})$
Battery Voltage/Capacity	3.7V/1200mAH
Battery Life	$\geq 20$ Hours
Operating Temperature	-20~+60°C
Waterproof Rating	IP67
Shell Material	PC+10%GF
Overall Dimensions	70.5mm × 34.4mm × 21.9mm
Lanyard Length	Adjustable up to 40cm
SIM Card	NANO-SIM

# Patent Certification

Certified by authoritative institutions, ensuring quality.

# One - Stop Service

One-stop service from 0 to 1: from design and development to production and packaging, and from shipment to after-sales support.
