PRODUCT DISPLAY

Simple installation

The electronic lock is fixed by self-tapping screws. The installation is simple, convenient and firm. Even adults can hardly open it violently.

5

ABS environmental protection materials

Environmental protection material production: ABS fire prevention flame retardant materials, high temperature resistant mechanical lock core, cabinet lock auto-rebound function, anti-hit self-locking lock body

Opening multiple locks with one card

According to different needs can be set to open a single card or double card to open the door.

Built-in installation without opening hole

Breakthrough design, Invisible security lock, Invisibility More secure, Invisible protection for you

European standard process, stable performance

The internal wiring is neat, thickened induction coil, and the sensing is more sensitive. Original chip, high temperature resistance, impact resistance, stable performance.

ultra-low quiescent current
