Systematic solution

GPS positioning

Upload the location automatically every hour
and upload location when locking.

We can do
whatever you need.

Scooter

Communication module

App

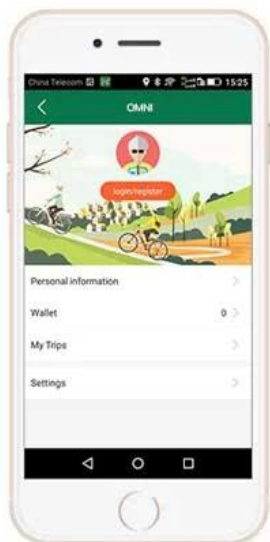

Server

Remote upgrade the lock program, display battery、location and riding tracks etc., and larage database management.

[illegible]

Scan to ride

Unlock by scanning code
and ride freely.

4 LED headlights provide
sufficient light for night
driving to ensure your safety.

The hardware of scooter

communication optional: 2G/3G/4G/NB/lora

Built-in control box:
better waterproof and anti-theft effect.

Rear lights with brakes, warnings, etc.
to ensure driving distance and safety
at all times.

Disc brakes, steady and safe.

8.5 inch wheel

Front and rear with Shock
-absorbing function,
comfortable and suitable
for short-distance travel.

10A: Battery capacity:10A
Max range: 25km

Omni

Omni Intelligent Technology Co., Ltd. is a leading manufacturer of smart mobility solutions. The company focuses on developing and producing high-quality, intelligent electric vehicles. Omni's products are designed to provide a safe, reliable, and eco-friendly mode of transportation. The company's commitment to innovation and technology is evident in its advanced features, such as IoT connectivity and GPS tracking. Omni's products are widely used in various settings, including urban commuting, delivery services, and shared mobility. The company's dedication to customer satisfaction and safety is a key factor in its success. Omni's products are designed to be durable and long-lasting, ensuring a reliable mode of transportation for years to come. The company's focus on research and development allows it to stay at the forefront of the smart mobility industry. Omni's products are a testament to the company's commitment to creating a better, more sustainable future.

The company cases

Intelligent riding system solution

Intelligent riding system solution

A green Omni bicycle is shown parked on a brick-paved surface. The bicycle has a black basket mounted on the handlebars and a black lock device attached to the frame. The lock device has a circular opening and a rectangular slot. The word "Omni" is visible on the frame.

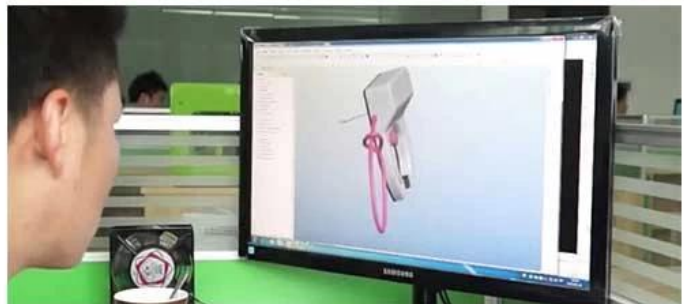

A photograph showing three individuals riding electric scooters in a bright, modern office hallway. On the left, a woman in a brown and white striped dress and high heels rides a white scooter. In the center, a man in a dark suit and white shirt rides a black scooter. On the right, a woman in a black dress and sneakers rides a black scooter. The hallway has large windows on the right and a polished floor.
