LOCK CONNECTOR CAN BE 360°FREE ROTATION

Connectoer can be 360° free rotation, meet different scenarios of locking requirements

360°Free Rotation

UPGRADE BOLD 8MM DIAMETER CABLE

Strong and durable, anti sawing and anti cutting, security and anti theft

UART/CAN COMMUNICATION TECHNOLOGY ADOPTED

UART/CAN communication technology adopted, interworking with IOT device, IOT module control working

IOT Control Working

Switch lock is realized through IOT module control

IOT

Cable Lock

LOCK WITHOUT KEY SNAP AND LOCK

Reject the traditional key-locked cable lock, snap in and lock without complicated steps

EXTENDED RETRACTABLE STEEL CABLE

The extended length of the steel cable is 1.2m

1.2m

SUPER WATERPROOF IPX8 RATING

Glue encapsulation technology, waterproof IPX8, Soak in water for 3 hours and still use normally, use normally in heavy rain

SHOW DETAILS

01.

ALLOY LOCK CYLINDER

—

Safe and strong, anti–theft

Lock cylinder

02.

ALLOY LOCK HEAD

—

Solid and durable
Lock head

03.

PVC OUTER LAYER

—

Environmental, no cracking no deformation

PVC outer layer

ENVIRONMENTAL PVC SHEATH

Waterproof, rust–proof and scratch–proof outer layer,
Not easy to rust does not damage the paint

High temperature and
cold resistance

Anti–corrosion
and rust

impact resistance
