NEW GPS TRACKER FOR BIKE/EBIKE

The new GPS device indicates the intelligent development of micromobility.

- GEO fence alarm
- Over speed alarm
- Remote control power-off
- Transmit GPS and send data
- ACC detection

POWER YOUR LIFE

Orbit

The advertisement features a dark green background with a blurred image of cyclists on a road. A black GPS tracker device is shown in the foreground, angled towards the viewer. The device has a circular display at the top showing a mobile phone icon, a speaker grille in the middle, and a small green button at the bottom. The text 'POWER YOUR LIFE' is printed vertically on the side of the device, and the brand name 'Orbit' is visible at the bottom. The overall design is clean and modern, emphasizing the device's role in enhancing the cycling experience.

GEO fence **Set Geo fence on phone APP**

1

After installed,a GEO fence area can be set on the smartphone APP. The vehicles are allowed to ride within a fixed area.If it exceeds the range,the vehicle will be given a power-off command.

As shown below

OVER SPEED ALARM

2

When the riding exceeds the speed limit, the rider receives an alarm and the data will be sent to the server.

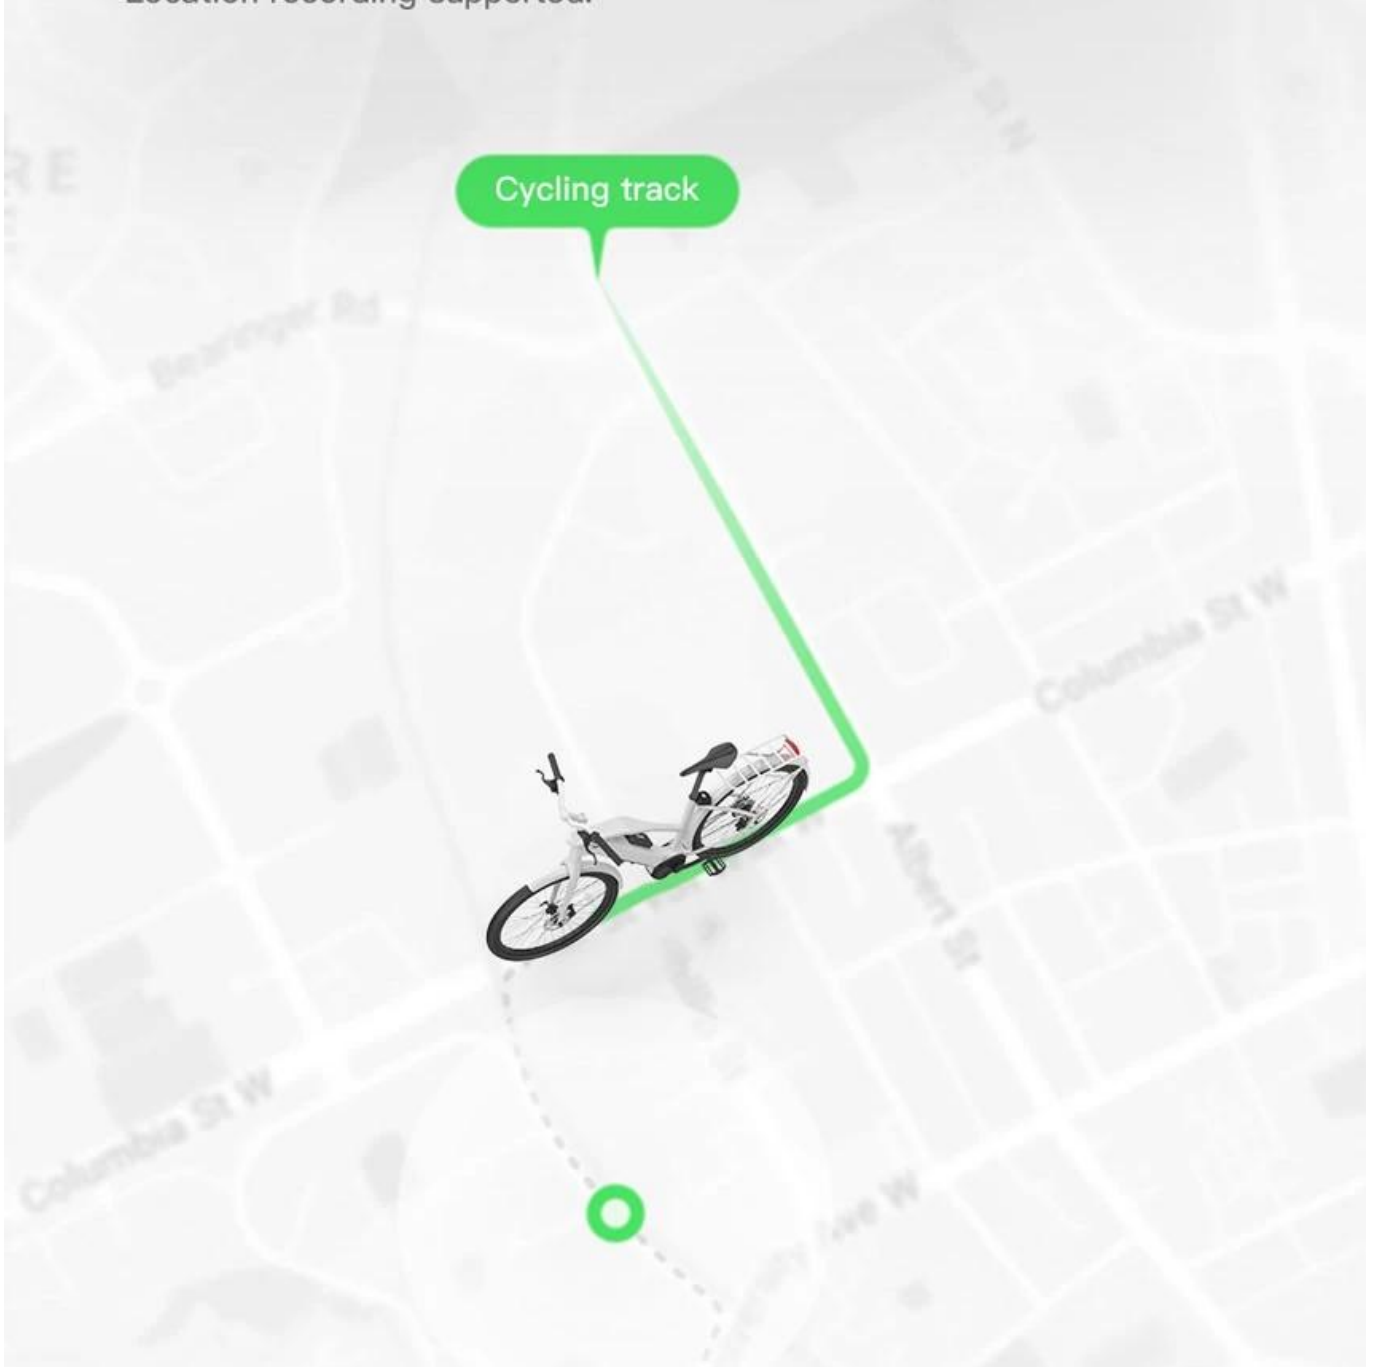

OVERSPEED

HISTORIC TRACK AND PLAYBACK

3

Riders can track their historic route on smartphone APP.
Location recording supported.

Bike/ebike/moped ACC detection

4

The new gps tracker detects the starting state of the vehicles to prevent illegal riding. If there's vehicle failure, it will shut down normally.
