

1. Posicionamiento preciso: posicionamiento multimodo que incluye GPS, BDS, GLONASS, GALILEO, WIFI asistido es preciso. Proteja automáticamente a su mascota, sótano, metro y modo de ubicación todos los días, utilizando el nuevo chip de posicionamiento de alta sensibilidad MT2503D sin límite de distancia, seguimiento de posicionamiento en tiempo real de 10 segundos, anti-escudo inteligente.
2. Geo cerca: seguimiento inteligente, antirrobo y antipérdida, al salir del rango de configuración, la aplicación móvil te lo recordará de inmediato. Carga magnética: tecnología avanzada de carga por contacto a prueba de agua, más eficiente y conveniente.
3. Grabación en tiempo real: escuche los sonidos circundantes en una dirección, puede escuchar los sonidos de las mascotas y comprender su dinámica en tiempo real.
4. Trayectoria histórica: ¿Dónde estás de un vistazo? La caída de mascotas es clara de un vistazo dentro de los tres meses, y es más conveniente encontrar un perro en tiempo real.

FULL TIME BODYGUARD

intelligent pet tracker

Full system solution provider

Don't worry about pet loss or
accidental injury

Security and
intelligence pet tracker

REAL TIME
POSITIONING

Does not harm hair
and has strong air permeability.

It is not
easy to stick wool.

SMART TRACKER FOR PETS

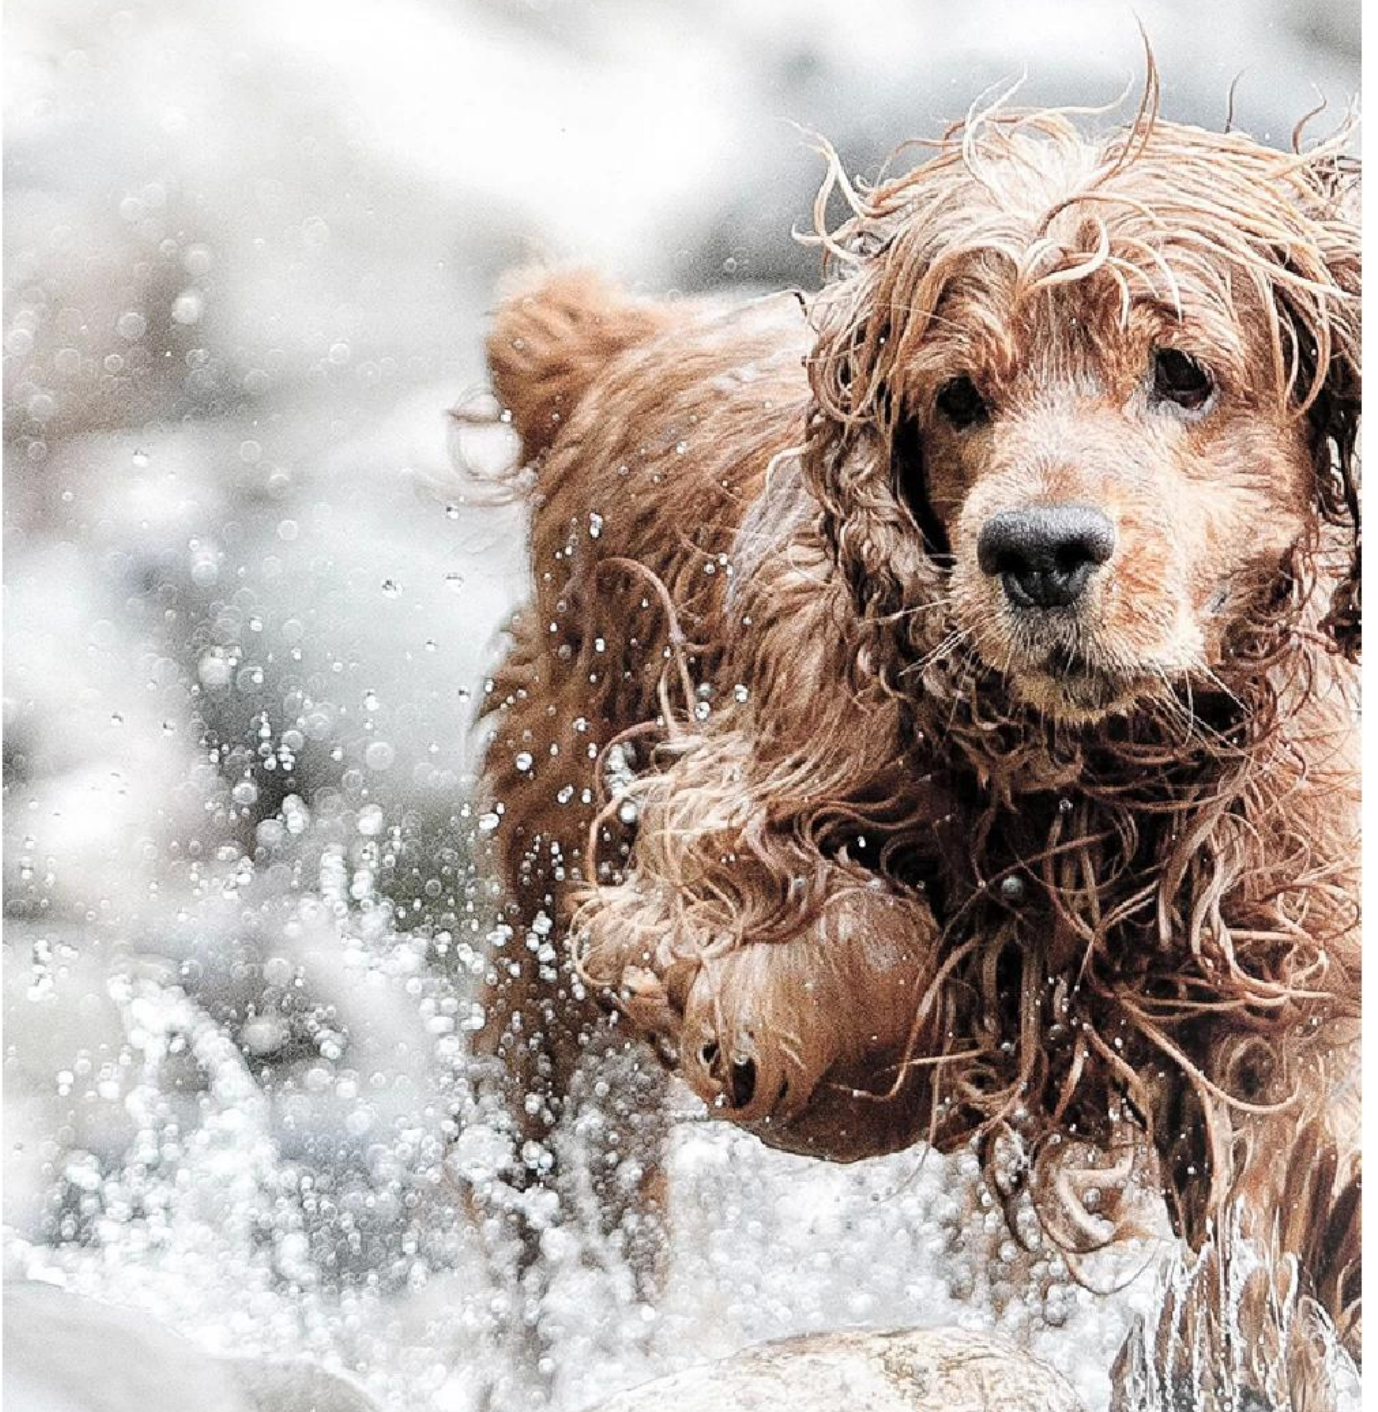

Pet's full-time bodyguard

TRACKER

Where are 90% going

Tens of millions of pets are lost or stolen every year around the world, only 10% of which are recovered by owners

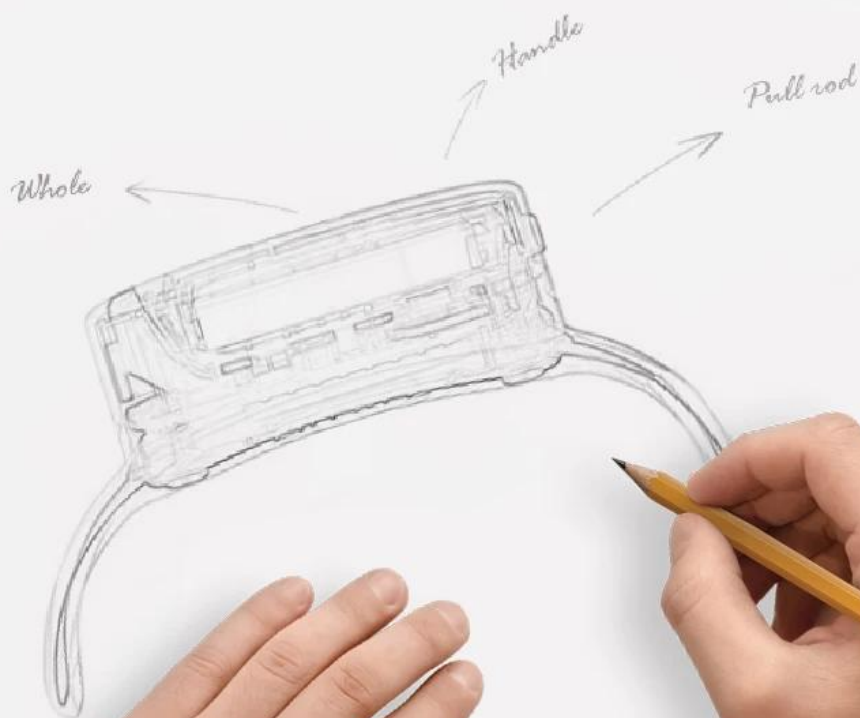

SMART COLLAR

Autonomous design

A pet intelligent collar independently developed and designed by OMNI intelligent

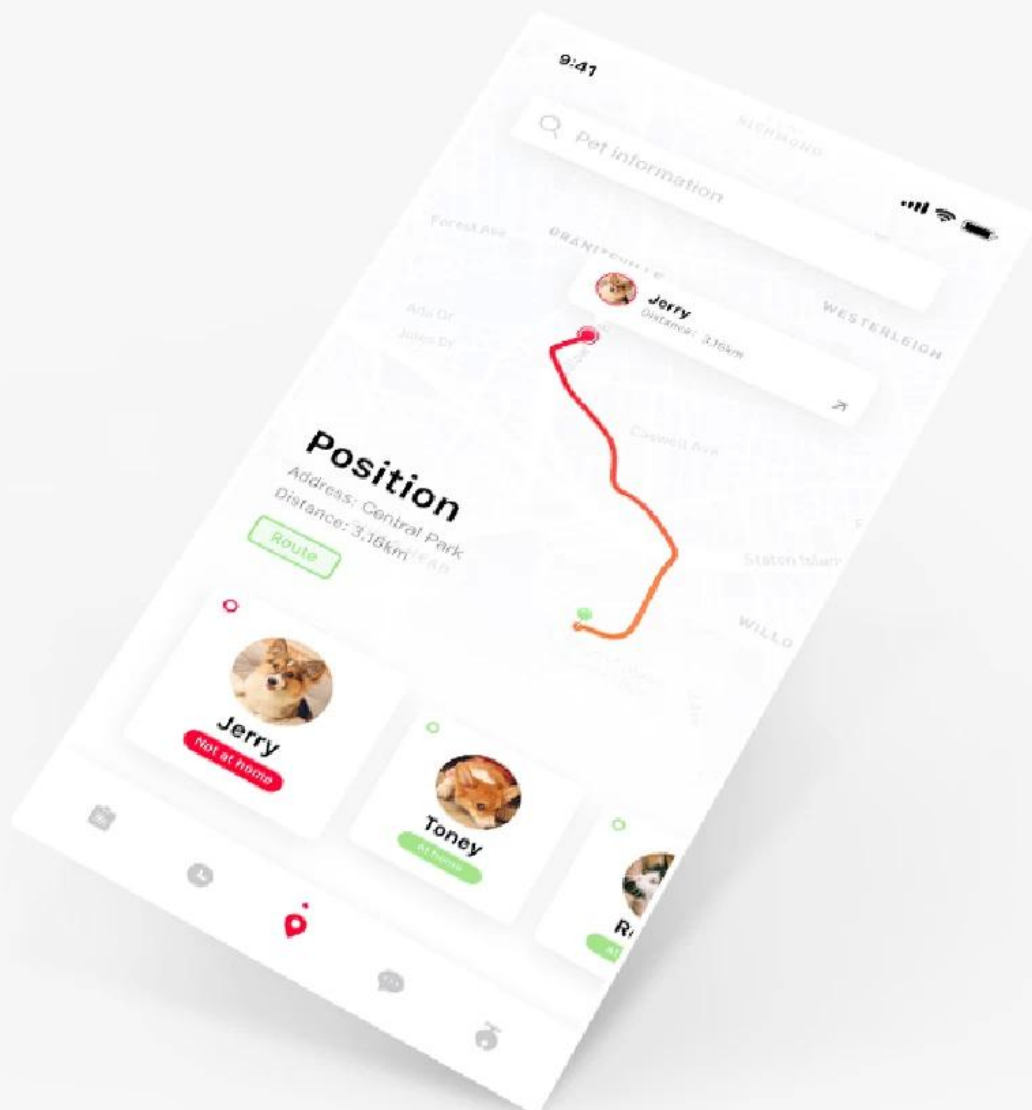

SMART POSITIONING

GPS positioning

GPS precise positioning, and can set a safe distance, pet out of bounds, alarm alert

MONITORING AROUND

GPS positioning

GPS precise positioning, and can set a safe distance, pet out of bounds, alarm alert

Efficient processing of smart chips

High precision, fast real-time precise
positioning

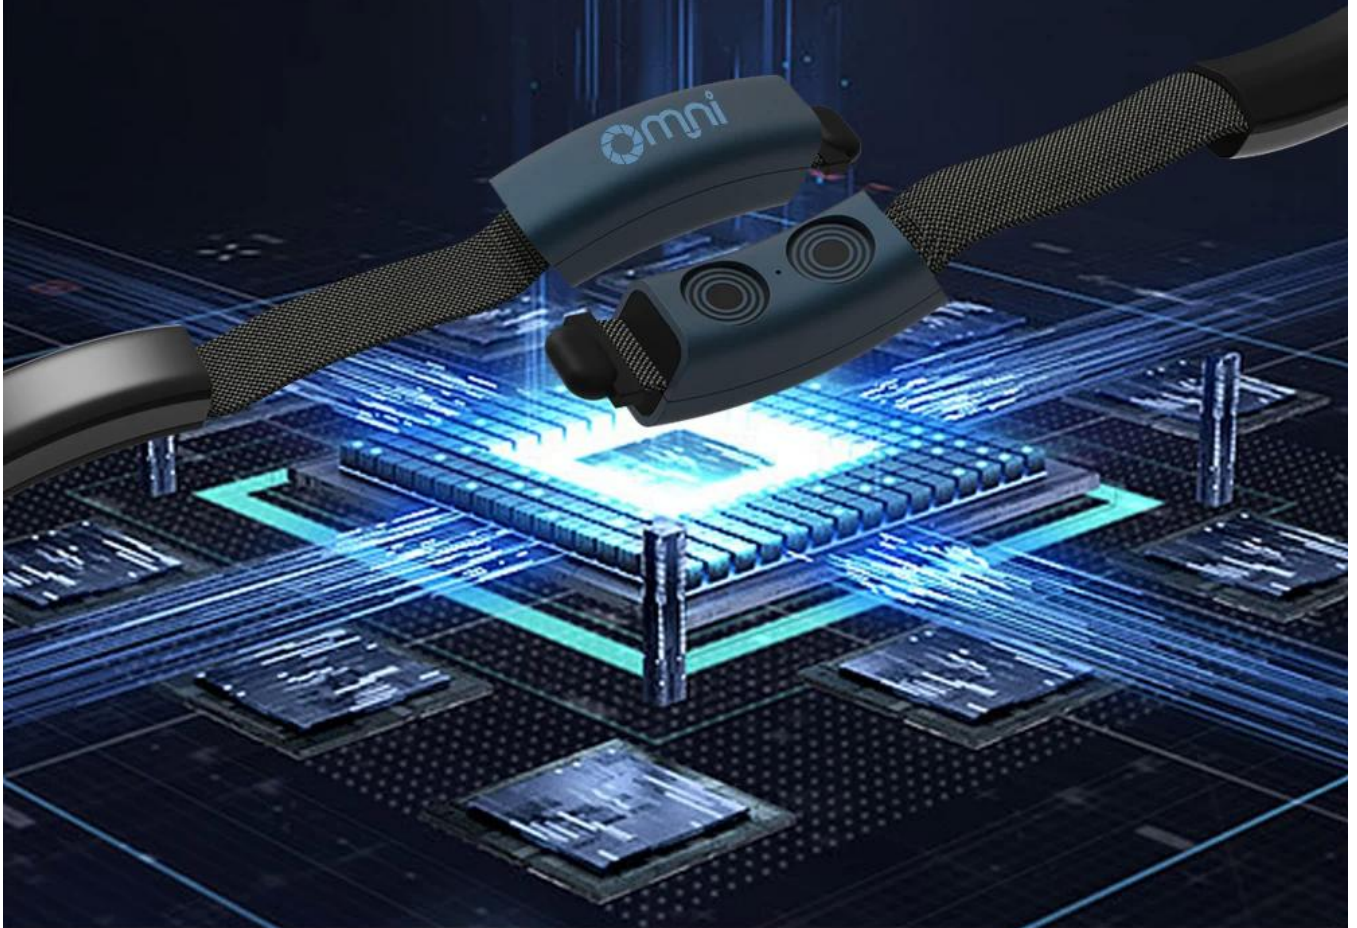

More accurate
positioning

Faster
processing

More stable
platform

MONITORING AROUND

PA composite

Composite material, wear resistance 3 times more than conventional PET ring, good air permeability, sliding clasp, adjustable according to pet

ADVANCED BATTERY

Super power endurance

Two hours of fast charging, a single battery can last for five days, each package contains two batteries

2 h

Charging time

5 d

Single standby time

10 d

Dual standby time

KNOW ME BETTER

Product display

Composite material, wear resistance 3 times more than conventional PET ring, good air permeability, sliding clasp, adjustable according to pet
