

1. Posicionamiento preciso: posicionamiento multimodo que incluye GPS, BDS, GLONASS, GALILEO, WIFI asistido es preciso. Proteja automáticamente a su mascota, sótano, metro y modo de ubicación todos los días, utilizando el nuevo chip de posicionamiento de alta sensibilidad MT2503D sin límite de distancia, seguimiento de posicionamiento en tiempo real de 10 segundos, anti-escudo inteligente.
2. Geo cerca: seguimiento inteligente, antirrobo y antipérdida, al salir del rango de configuración, la aplicación móvil te lo recordará de inmediato. Carga magnética: tecnología avanzada de carga por contacto a prueba de agua, más eficiente y conveniente.
3. Grabación en tiempo real: escuche los sonidos circundantes en una dirección, puede escuchar los sonidos de las mascotas y comprender su dinámica en tiempo real.
4. Trayectoria histórica: ¿Dónde estás de un vistazo? La caída de mascotas es clara de un vistazo dentro de los tres meses, y es más conveniente encontrar un perro en tiempo real.

FULL TIME BODYGUARD

# intelligent pet tracker

Full system solution provider

Don't worry about pet loss or  
accidental injury

Security and  
intelligence pet tracker

REAL TIME  
POSITIONING

Does not harm hair  
and has strong air permeability.

It is not

# SMART TRACKER FOR PETS

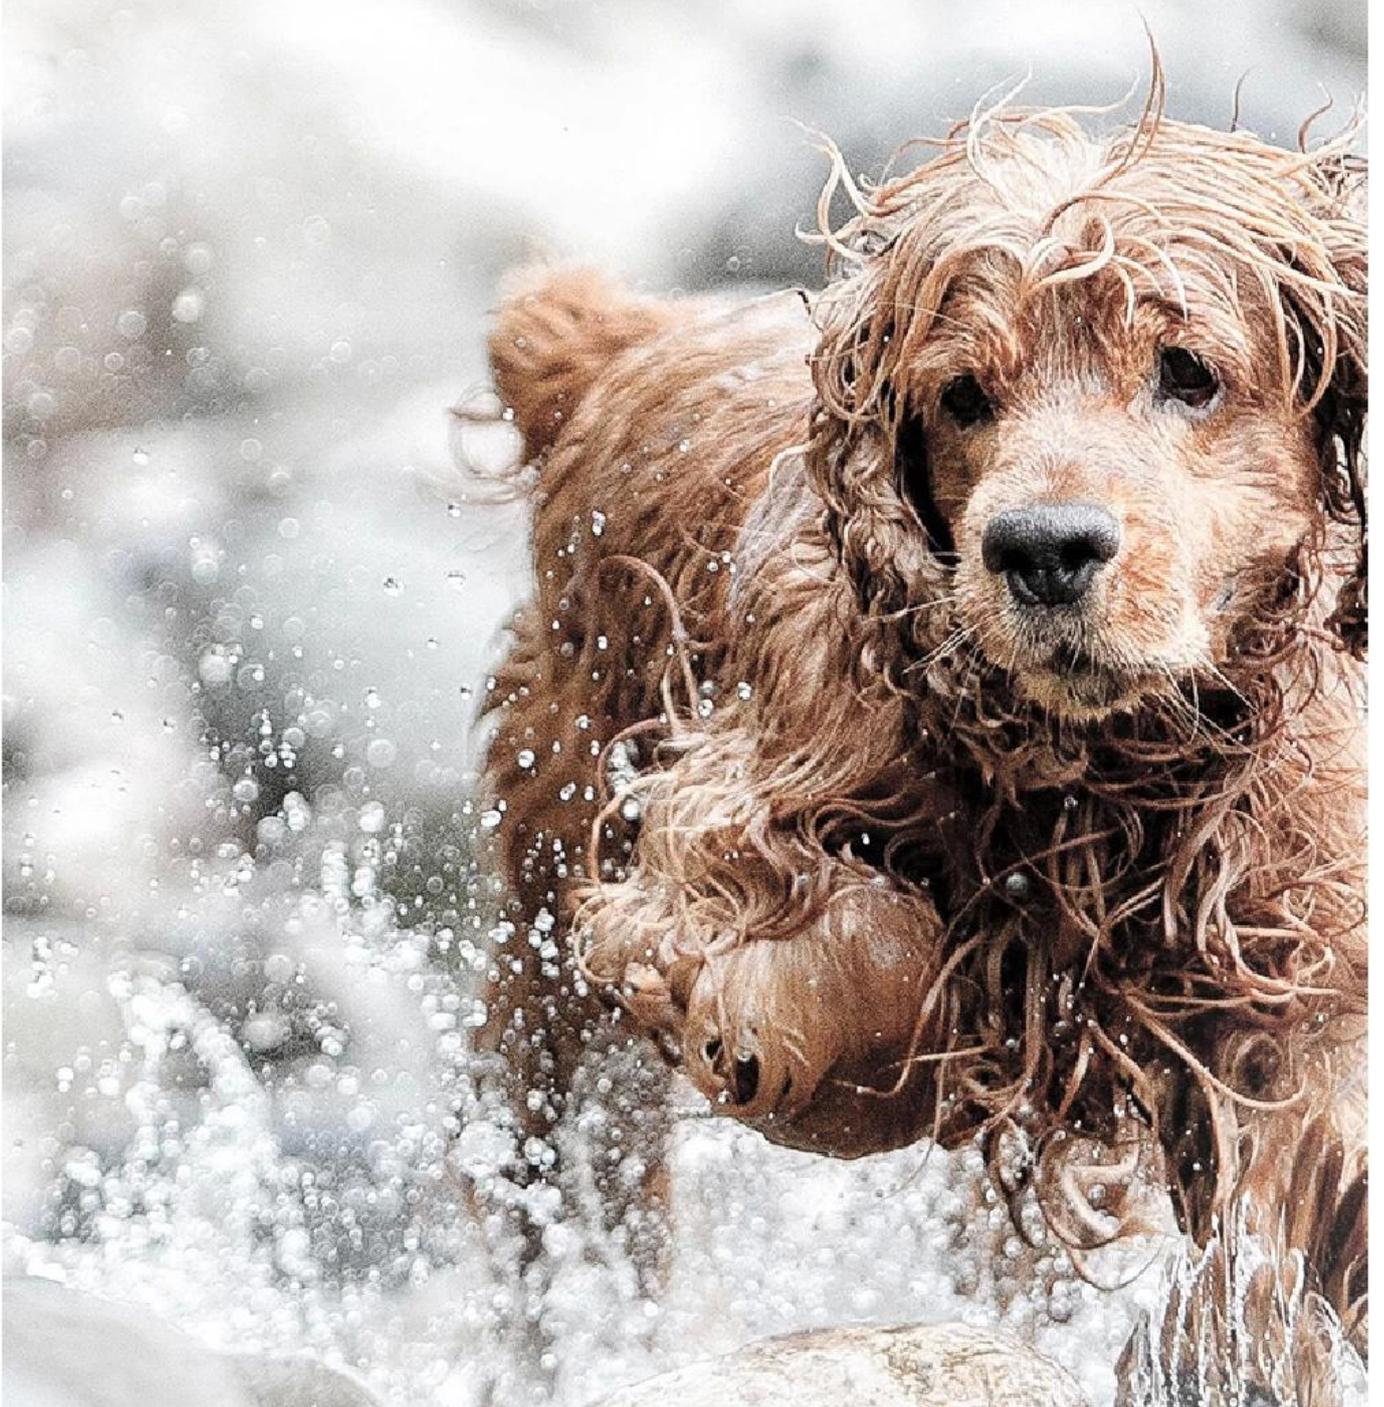

Pet's full-time bodyguard

TRACKER

## Where are 90% going

Tens of millions of pets are lost or stolen every year around the world, only 10% of which are recovered by owners

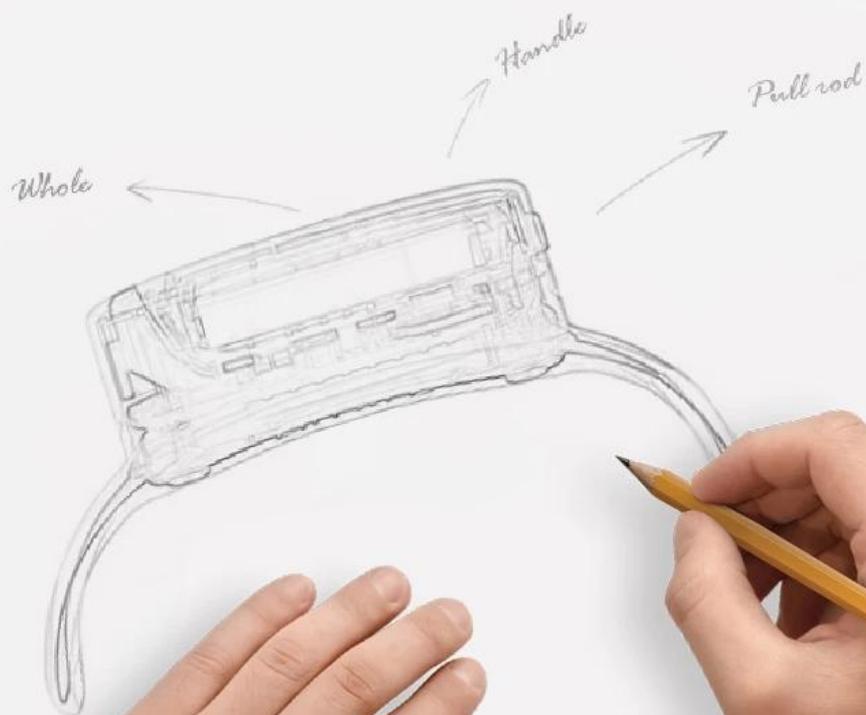

SMART COLLAR

# Autonomous design

A pet intelligent collar independently developed and designed by OMNI intelligent

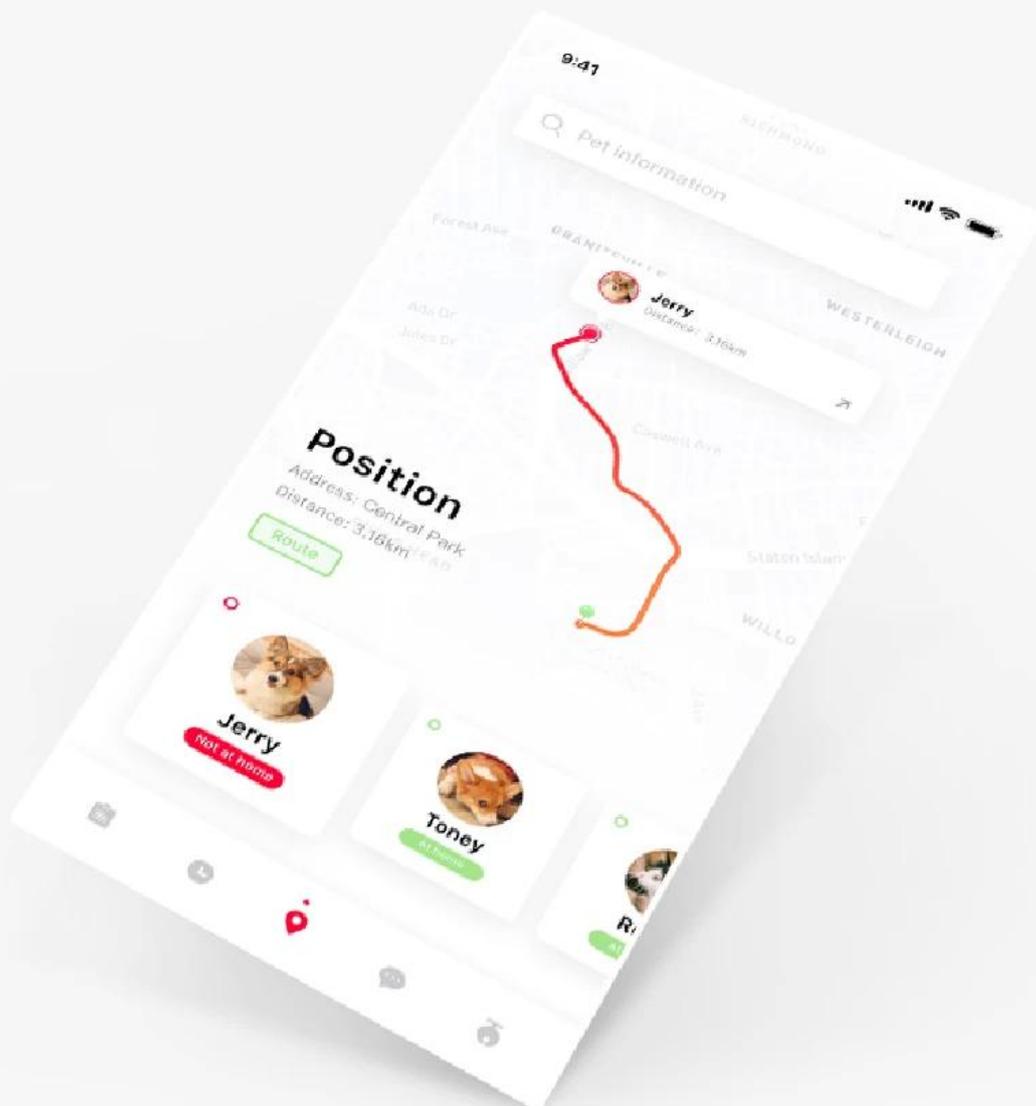

## SMART POSITIONING

# GPS positioning

GPS precise positioning, and can set a safe distance, pet out of bounds, alarm alert

MONITORING AROUND

# GPS positioning

GPS precise positioning, and can set a safe distance, pet out of bounds, alarm alert

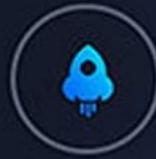

# Efficient processing of smart chips

High precision, fast real-time precise  
positioning

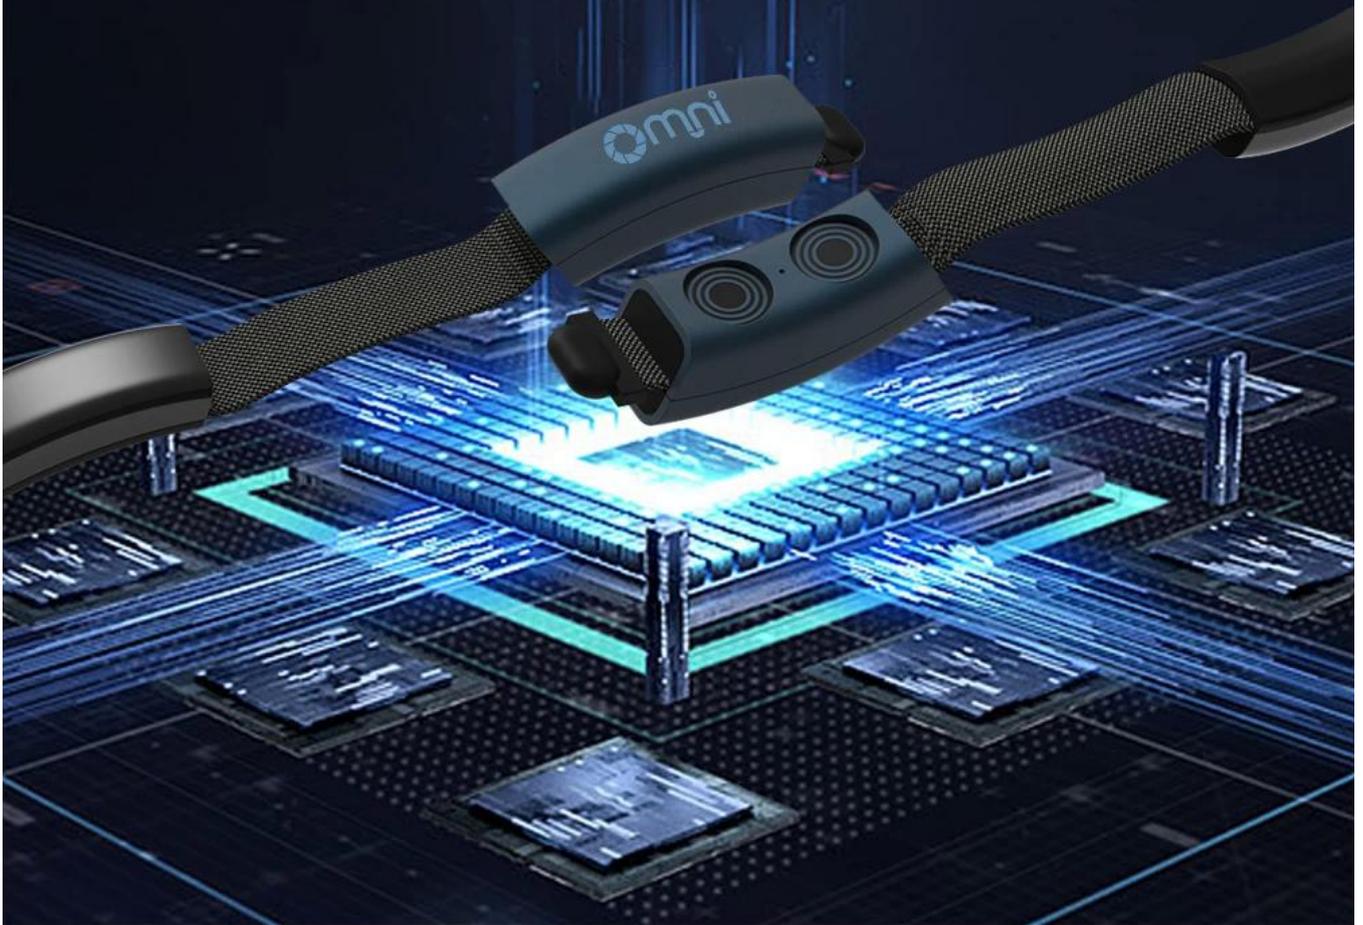

More accurate  
positioning

Faster  
processing

More stable  
platform

MONITORING AROUND

# PA composite

Composite material, wear resistance 3 times more than conventional PET ring, good air permeability, sliding clasp, adjustable according to pet

## ADVANCED BATTERY

# Super power endurance

Two hours of fast charging, a single battery can last for five days, each package contains two batteries

**2** h

Charging time

**5** d

Single standby time

**10** d

Dual standby time

KNOW ME BETTER

# Product display

Composite material, wear resistance 3 times more than conventional PET ring, good air permeability, sliding clasp, adjustable according to pet
