Smart Gateway

MOTOR LOCKS AUTOMATICALLY

After closing, the motor will be locked,
and the window cannot be opened outside,
so as to better protect the safety of property

Automatically locked
safe and anti-theft

FEATURES OF OUR PRODUCTS

Our window pusher	Other's window pusher
Aluminum shell + Chain type thrust	**Ordinary shell + Fixed thrust**

VS

The shell is made of aluminum alloy, which is corrosion resistant and not easy to rust ✔

✗ The shell is made of ordinary iron material, easy to rust and corrosion

Chain-type thrust design, more stable and smooth operation ✔

✗ Direct push type design, unstable operation, easy to stagnate

26dB ✔
1 meter distance measured

✗ **50dB**
1 meter distance measured

| ☑ Wide voltage power supply	☑ Journey Adjustable	☑ Super silent design	☑ Stop on obstacle

❖ 100-240V AC power input, suitable for global wide voltage standards

❖ To change the journey through the knob, the range is from 100mm to 400mm

❖ Installing at window width min. 470mm.

❖ More than 10,000 times of running.

❖ Double layers stainless chain makes smoothly and stable running.

❖ Aluminum casing is with high level surface treatment, end covers and brackets are in zinc alloy material.

❖ Double fireproof ABS internal casing, POM material track for chain make motor silent and safe.
