

1. Posizionamento preciso: posizionamento multimodale incluso GPS, BDS, GLONASS, GALILEO, WIFI assistito è accurato. Proteggi automaticamente il tuo animale domestico, il seminterrato, la metropolitana e la modalità di localizzazione ogni giorno, utilizzando il nuovo chip di posizionamento ad alta sensibilità MT2503D senza limiti di distanza, 10 secondi di tracciamento del posizionamento in tempo reale, anti-scudo intelligente.
2. Recinzione geografica: tracciamento intelligente, antifurto e anti-smarrimento, quando si esce dall'intervallo di impostazione, l'APP mobile te lo ricorderà immediatamente. Ricarica magnetica: tecnologia avanzata di ricarica a contatto impermeabile, più efficiente e conveniente.
3. Registrazione in tempo reale: ascolta i suoni circostanti in una direzione, puoi ascoltare i suoni degli animali domestici e comprendere le loro dinamiche in tempo reale.
4. Traiettoria storica: dove sei a colpo d'occhio? Il calo degli animali domestici è evidente a colpo d'occhio entro tre mesi ed è più conveniente trovare un cane in tempo reale.

FULL TIME BODYGUARD

intelligent pet tracker

Full system solution provider

Don't worry about pet loss or
accidental injury

Security and
intelligence pet tracker

REAL TIME
POSITIONING

Does not harm hair
and has strong air permeability.

It is not
easy to stick wool.

SMART TRACKER FOR PETS

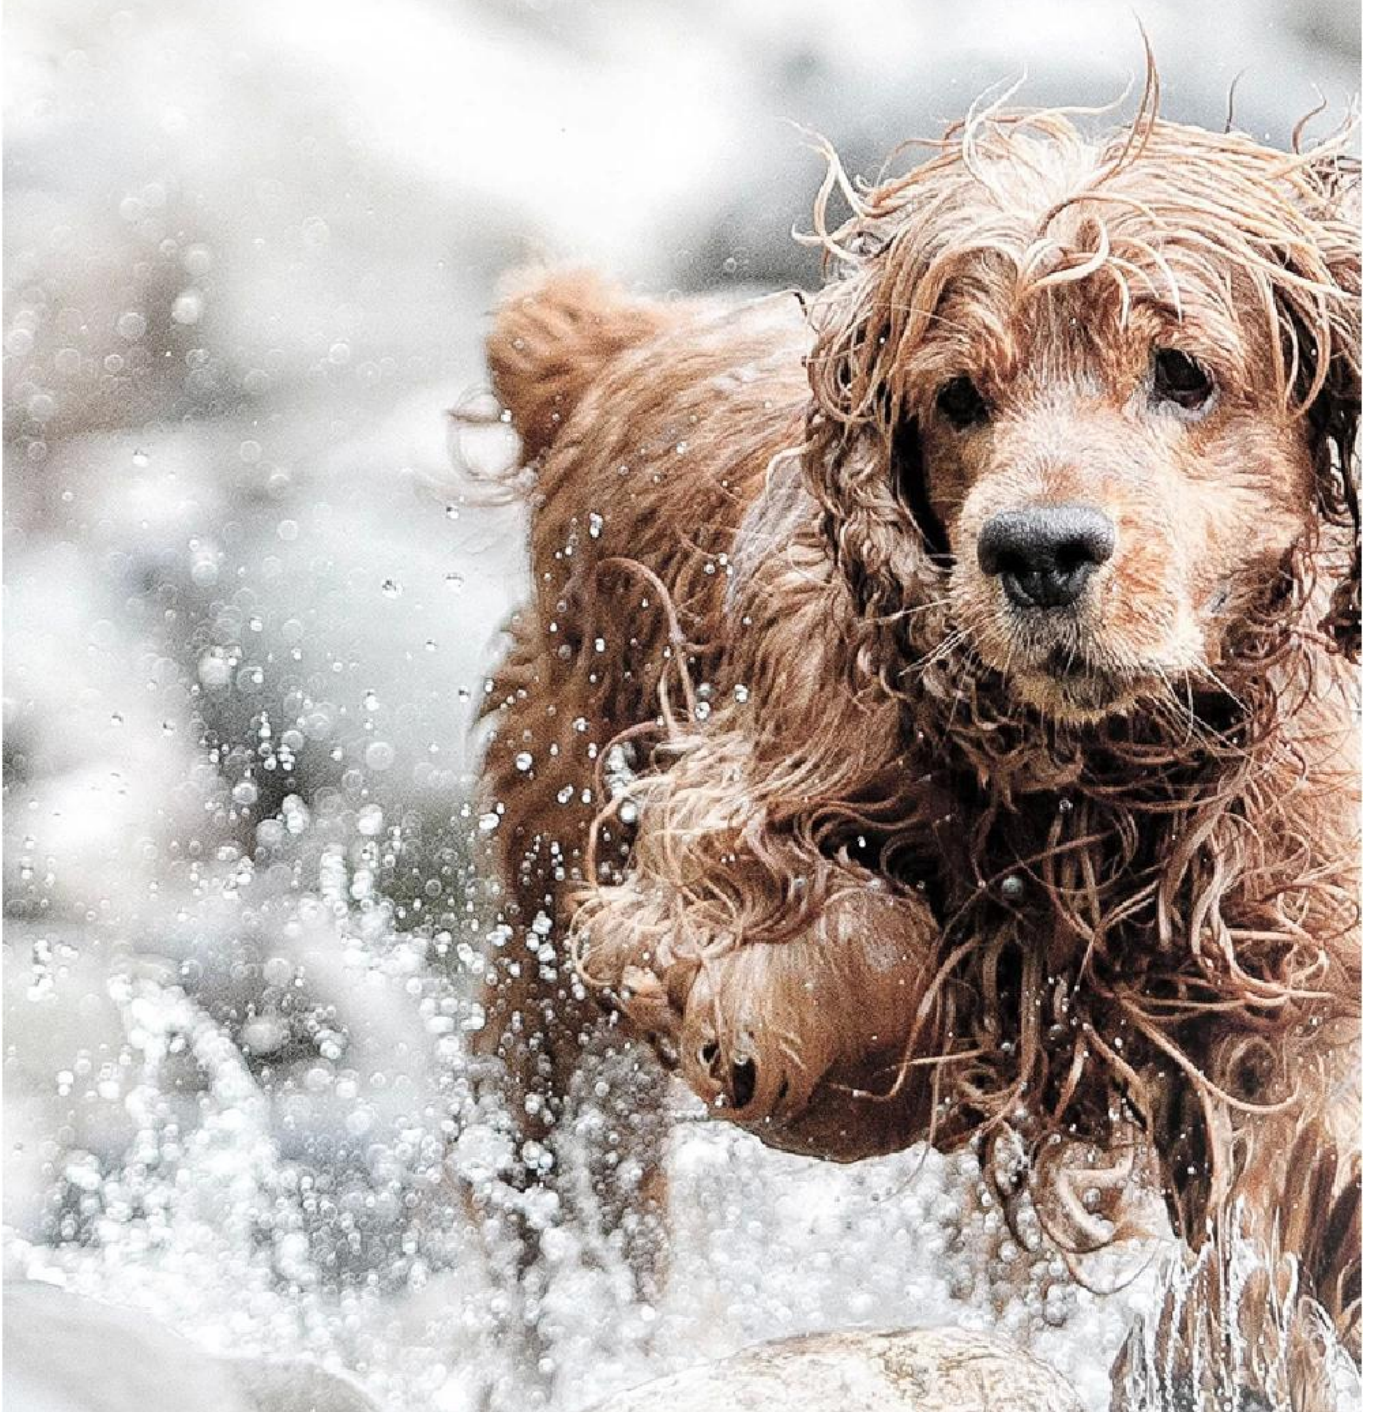

Pet's full-time bodyguard

TRACKER

Where are 90% going

Tens of millions of pets are lost or stolen every year around the world, only 10% of which are recovered by owners

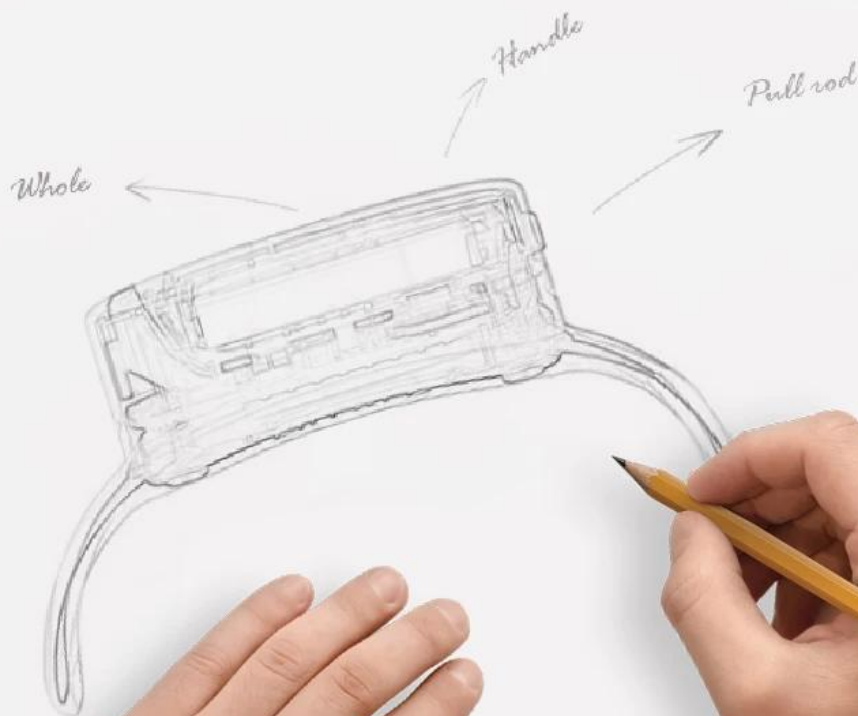

SMART COLLAR

Autonomous design

A pet intelligent collar independently developed and designed by OMNI intelligent

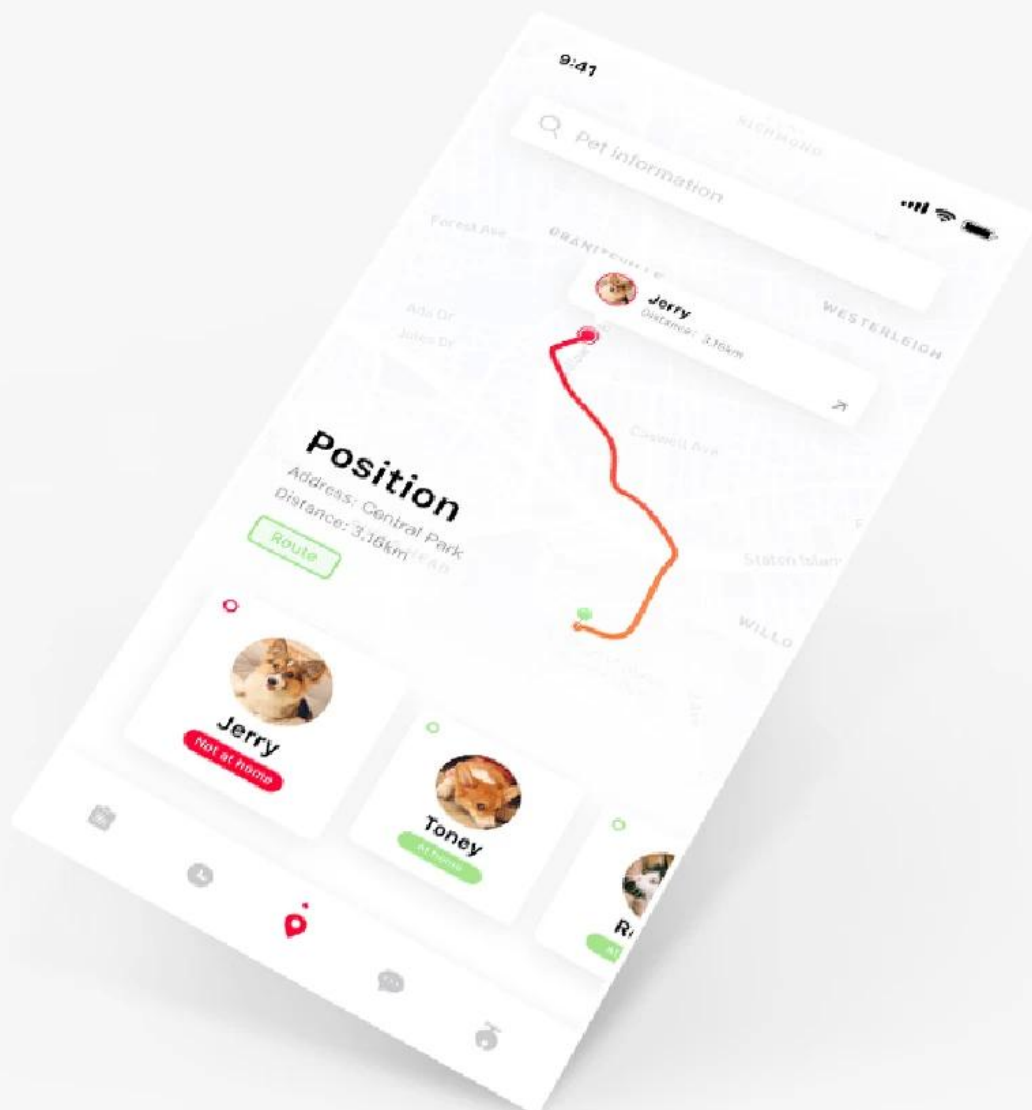

SMART POSITIONING

GPS positioning

GPS precise positioning, and can set a safe distance, pet out of bounds, alarm alert

MONITORING AROUND

GPS positioning

GPS precise positioning, and can set a safe distance, pet out of bounds, alarm alert

Efficient processing of smart chips

High precision, fast real-time precise
positioning

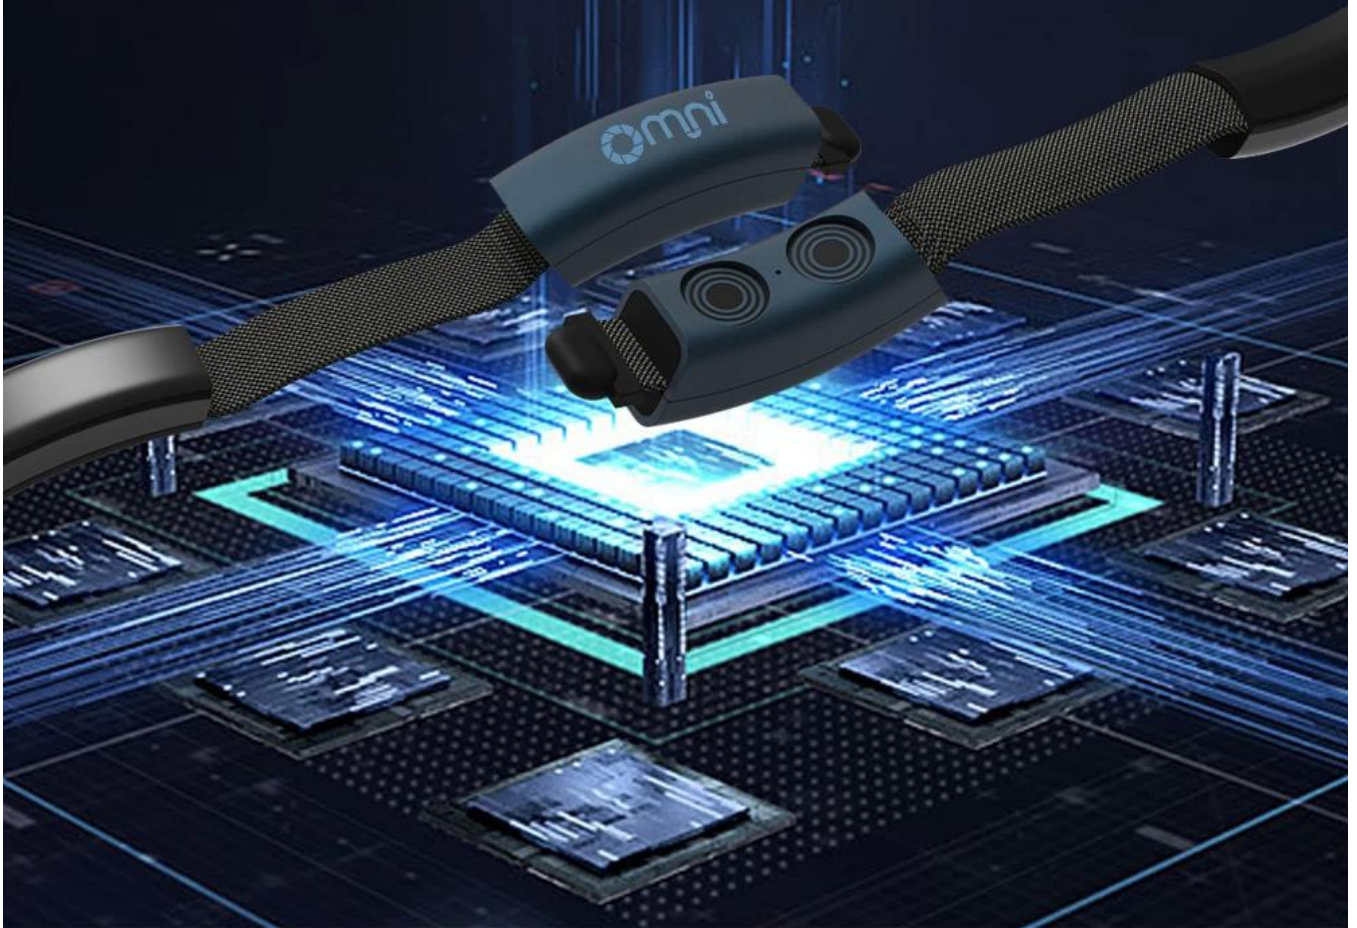

More accurate
positioning

Faster
processing

More stable
platform

MONITORING AROUND

PA composite

Composite material, wear resistance 3 times more than conventional PET ring, good air permeability, sliding clasp, adjustable according to pet

ADVANCED BATTERY

Super power endurance

Two hours of fast charging, a single battery can last for five days, each package contains two batteries

2 h

Charging time

5 d

Single standby time

10 d

Dual standby time

KNOW ME BETTER

Product display

Composite material, wear resistance 3 times more than conventional PET ring, good air permeability, sliding clasp, adjustable according to pet
