Multi-mode high-precision positioning

Supports remote location retrieval via GPS, GLONASS, BeiDou, Galileo, and Wi-Fi-assisted positioning.

WIFI
GPS
Galileo
GLONASS
BeiDou

Vibration detection

When the vehicle is locked and vibration is detected, the IoT device will notify the server and sound an alarm.

IP67 rated dustproof and waterproof

Bluetooth 5.0

IoT 기반 스마트 및 관리 기능

1 To support urban green travel and commercial transport, we've created an electric tricycle rental platform with IoT smart controls and relays for efficient fleet management.

Real-time positioning and data reporting

Back-end management

Vehicle control and anti-theft alarm

2 By combining online and offline platforms, we offer an intelligent car purchasing model that addresses **battery maintenance, range extension, precise positioning, and anti-theft**, delivering a new driving experience.
