

# MDL601

MDL601 is a compact, portable device designed for secure access control. It features a high-resolution camera for facial recognition, an Omni-directional Fingerprint sensor for secure authentication, and a color display for user interaction. [View Product](#)

## Specifications

Model	MDL601
Color	Black
Dimensions	40 x 120 x 120 mm
Weight	~100g
Power Supply	DC6V, 1.5V, 4pcs "AA" batteries
Current Consumption	≤200mA
Operating Temperature	40 ~ 120mm
Supported Languages	English + Chinese + Korean + Japanese
Camera Resolution	99
Fingerprint Sensor	100000
Accuracy	≤ 1 %
Security	≤0.0001 %

## Features

Supports multiple authentication methods: Facial Recognition, Fingerprint, and RFID.

High-resolution camera for accurate facial recognition.

Omni-directional Fingerprint sensor for secure authentication. Supports multiple languages for user interface.

Compact and portable design, easy to carry and use.

Compatible with PC and USB. Features a color OLED display for user interaction.

Long battery life: up to 5,000 uses per charge. Supports 4 AA 1.5V batteries. OLED display for user interaction.
