

Luggage Tracker IP65 Waterproof Mini Locator for Keys, Suitcase, Bag, Wallet and More

- □EASILY LOCATE ITEM: OMNI [luggage tracker](#) that can easily locate users' item by apple "Find My" app (compatible with Apple iOS ONLY), activate sounds when it's within Bluetooth Range or check recent location with the help of hundreds of millions of Apple devices in "Find My" network.
- □SENDING ALERTS: Equipped with acceleration sensors, buzzers. Users can set the buzzer as per own needs.
- □LEFT BEHIND REMIND: Users CAN attach this apple licensed tracker tags to anything users need to keep an eye on. When people's belonging is left beyond the Bluetooth range, the item locator will send them a reminder within 10 mins (turn on the notification setting in advance) so people can go back and retrieve it.
- □WITH A FREE LANDYARD INCLUDED: The items finder comes with a lanyard, ensuring exceptional durability and longevity. This smart tracker can easily withstand daily wear and tear, making it ideal for attaching to wallets and important items like the keys.
- □REPLACEABLE BATTERY: The battery (CR2032) for this Bluetooth locator is the same as that for Apple Air Tag, which lasts up to 12 months. The long battery life makes sure the item tracking tag is always active to help users locate their items.
- □ONE-MINUTE SETUP: Setting up and using OMNI Bluetooth locator is as simple as Apple Air Tag, open "Find My" Apps and bluetooth, tap "Add Item" and "Other Supported Item", and then the pairing will be completed within 30 seconds.
- □IP65 Waterproof: Support [Bluetooth locator](#) lasts up to 30 minutes

under water 1 meter.

Bluetooth Connection Easy To Find

With Bluetooth 5.0, open the app and play a sound to locate your lost item based on the sound.

Didi~didi

12-month Standby, Battery Replaceable

The device uses a CR2032 battery lasting about 12 months. App displays battery level

Apple MFI Certification

Using Apple's **FIND MY**, track your item globally using any nearby Apple device (iPhone/iPad and Mac), viewing it's location in the app.

Are you still worried about this?

It's versatile, attaching easily to keychains, backpacks, wallets, etc. When you open the app, you can view the nearby location instantly

Battery replacement steps:

1. Open the back cover

2. Install the battery

3. Put back the cover
