

IoT Device Controls Cable Lock Unlock Automatically with Built-in IoT Devices

The cable lock is for automatic unlocking and keyless easy locking for the scooters and IoT device controls the cable lock for intelligent unlocking, and IoT device also monitors the vehicle's status and report all the status to server so **sharing scooter** companies can check and monitor directly via backstage instead of manual inspection for the vehicle management. And most effectively, all the scooters would be anti-theft protected by interconnection of IoT device and cable lock.

No one can steal the scooters and move it when unlocked as the scooter which is built-in IoT device and cable lock is built-in alarming system. The alarming is including vibration, fell into the ground, strange movement, low battery, etc..

Besides the above super functionality, the IoT device is built-in GPS tracker which supports 4G technology, GPS, and Bluetooth, it's real-time positioning with high precision that differentiate 2G, 3G and old positioning technology from Omni's 4G technology.

360° rotation

LOCK CONNECTOR CAN BE 360°FREE ROTATION

Connectoer can be 360° free rotation, meet different scenarios of locking requirements

Upgrade Bold

UPGRADE BOLD 8MM DIAMETER CABLE

Strong and durable, anti sawing and anti cutting,
security and anti theft

UART/CAN COMMUNICATION TECHNOLOGY ADOPTED

UART/CAN communication technology adopted, interworking with IOT device, IOT module control working

IOT Control Working

Switch lock is realized through IOT module control

Lock keyless

LOCK WITHOUT KEY SNAP AND LOCK

Reject the traditional key-locked cable lock, snap in and lock without complicated steps

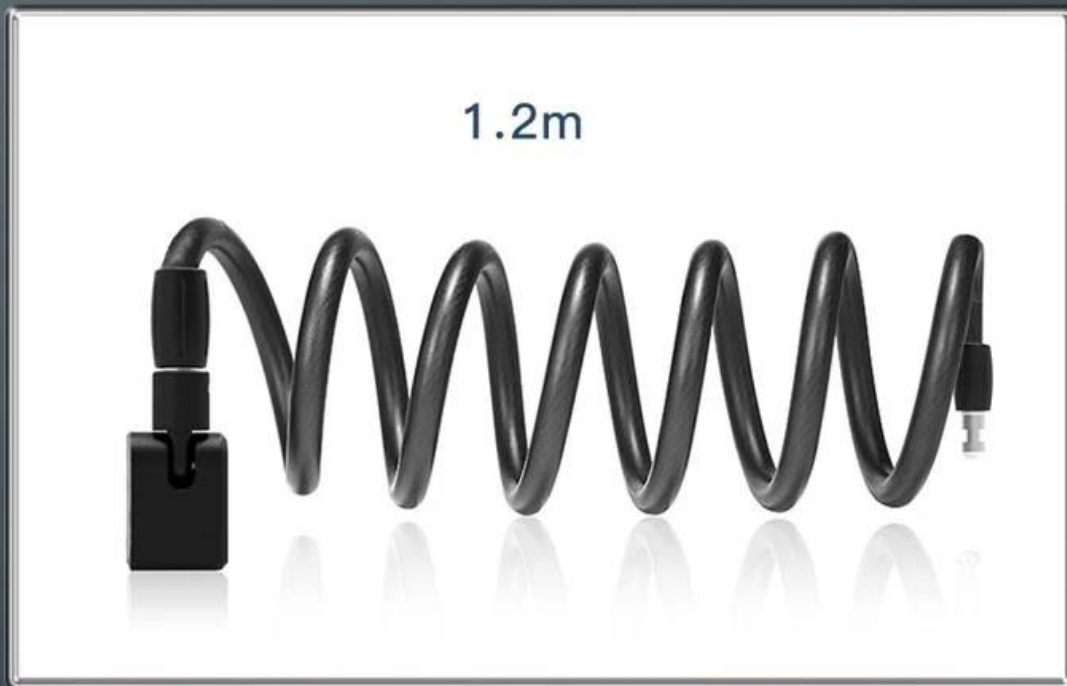

lengthen

EXTENDED RETRACTABLE STEEL CABLE

The extended length of the steel cable is 1.2m

Waterproof

SUPER WATERPROOF IPX8 RATING

Glue encapsulation technology, waterproof IPX8, Soak in water for 3 hours and still use normally, use normally in heavy rain

SHOW DETAILS

product details

01.

ALLOY LOCK CYLINDER

—
Safe and strong, anti-theft

Lock cylinder

02.

ALLOY LOCK HEAD

—
Solid and durable

Lock head

03.

PVC OUTER LAYER

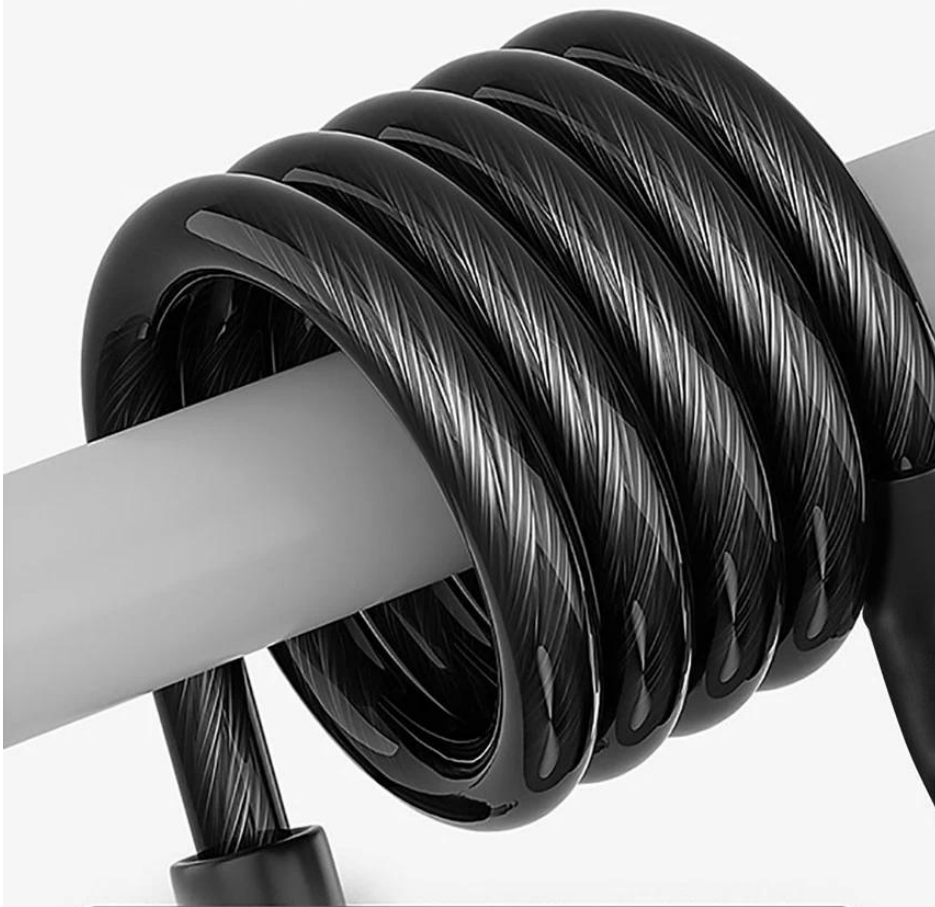

—
Environmental, no
cracking no deformation

PVC outer layer

ENVIRONMENTAL PVC SHEATH

Waterproof, rust-proof and scratch-proof outer layer,
Not easy to rust does not damage the paint

High temperature and
cold resistance

Anti-corrosion
and rust

Impact resistance
