

DSW100 Automatic Swing Door Operator

Pull arm(alternative)
inward opening

Push arm(alternative)
outward opening

Technical Parameters

Voltage	220V±10%
Power consumption	50W
Opening time	3~7s/90
Hold open time	1~30s adjustable
Max.door frame depth	450mm
Door width	Min.600mm/Max.1200mm
Max.opening angle	120°
Environment Temperature	-20℃~+50℃
Product Weight	6.5KGS
Protection class	IP12D
Product Size	L515*H95*W90mm

Product Features

- * External [electric lock](#) connection is available.
- * Remote function for easy using.
- * Simplicity and convenience in installation.
- * Closing/opening buffering function, and anti-collision when closing for safety.
- * Infrared sensor for automation is optional.
