

## GPS IoT Tracker Ensures Smart Tracking&Data&QR Code Auto Unlock and Lock

GPS IoT tracker,that is built-in IoT technology,makes e-bikes smart. GPS IoT tracker enables a safer and more seamless cycling experience: connect your bike,ebikes to an e-bike rental app, track it via GPS and other NAVI , get movement alerts, control it remotely, get vehicle and ride data, and many more awesome features such as auto unlock the vehicles via QR Code System,auto smart locking,vehicles fixed parking,and more.

Compatible with various vehicle types

## Multi-mode high-precision positioning

Supports remote location retrieval via GPS, GLONASS, BeiDou, Galileo.

## RFID Card Unlocking

Built-in RFID reader for quick, easy unlocking.

Built-in battery,  
long-lasting  
power

Voice  
announcements

IoT device & Lock

Temporary locking,  
360° Freely Rotation

Waterproof IPX8

## WORKFLOW

1. The app sends the "unlock command" to the IoT.

2. The IoT receives the command and sends it to the cable lock.

3. The cable lock receives the command and unlocks.

## CUSTOM APP DEVELOPMENT (USER/MERCHANT)

# WHY CHOOSE OMNI IOT ?

**20+**

20+ years factory

**20+**

20+ years in client service

**200+**

More than 200 Employees (over 50 R&D Personnel)

**6000**

6000 Square Meters of Office Space

**4**

4 Professional Production Lines

**1.5亿+**

Over 150 Million Users Using OMNI Positioning Services
