

1. Precise positioning: multi-mode positioning including GPS,BDS,GLONASS,GALILEO,WIFI assisted is accurate. Automatically protect your pet, basement, subway and location mode every day, using MT2503D new high-sensitivity positioning chip without distance limit, 10 seconds lightning real-time positioning tracking, intelligent anti-shield.
2. Geo fence: intelligent tracking, anti-theft and anti-lost, when leaving the setting range, the mobile APP will immediately remind you. Magnetic charging: advanced waterproof contact charging technology, more efficient and convenient.
3. Real-time recording: Listen to the surrounding sounds in one direction, you can listen to the sounds of pets and understand their real-time dynamics.
4. Historical trajectory: Where are you at a glance? The drop in pets is clear at a glance within three months, and it is more convenient to find a dog in real time.

FULL TIME BODYGUARD

# intelligent pet tracker

Full system solution provider

Don't worry about pet loss or  
accidental injury

Security and  
intelligence pet tracker

REAL TIME  
POSITIONING

Does not harm hair  
and has strong air permeability.

It is not  
easy to stick wool.

# SMART TRACKER FOR PETS

Pet's full-time bodyguard

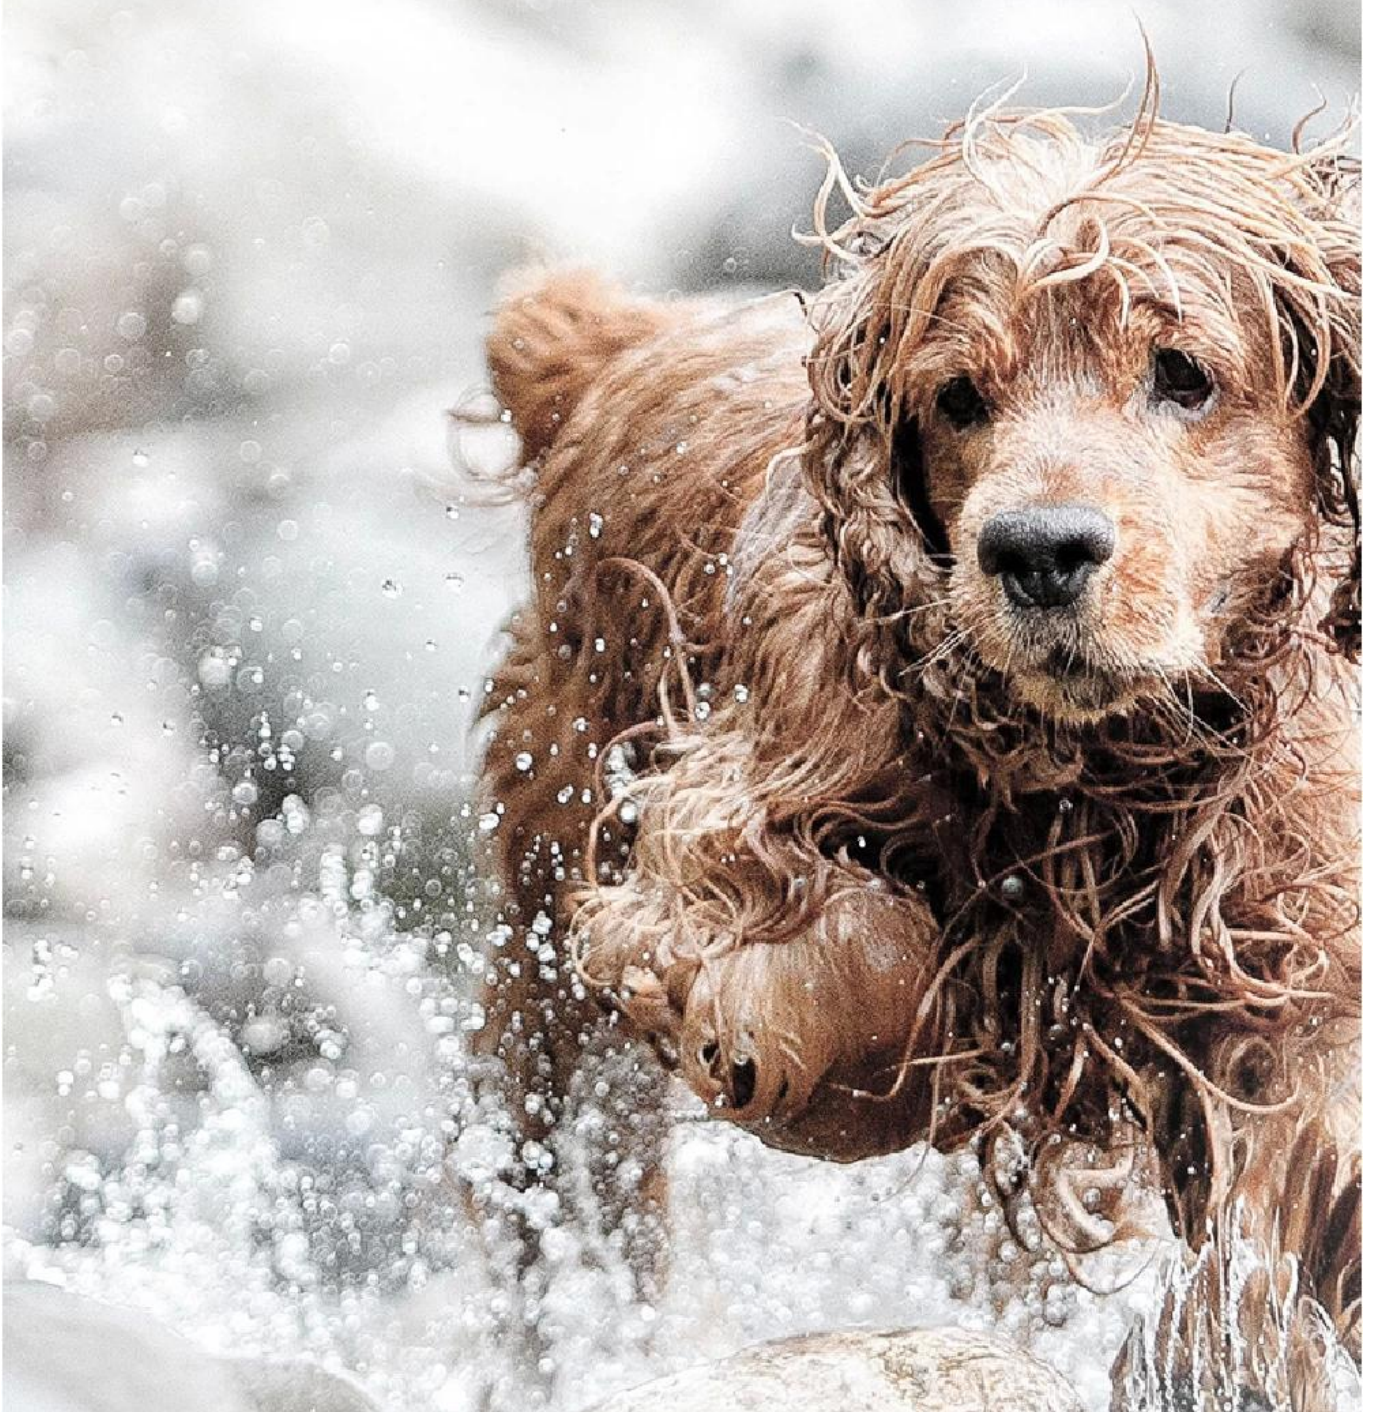

TRACKER

## Where are 90% going

Tens of millions of pets are lost or stolen every year around the world, only 10% of which are recovered by owners

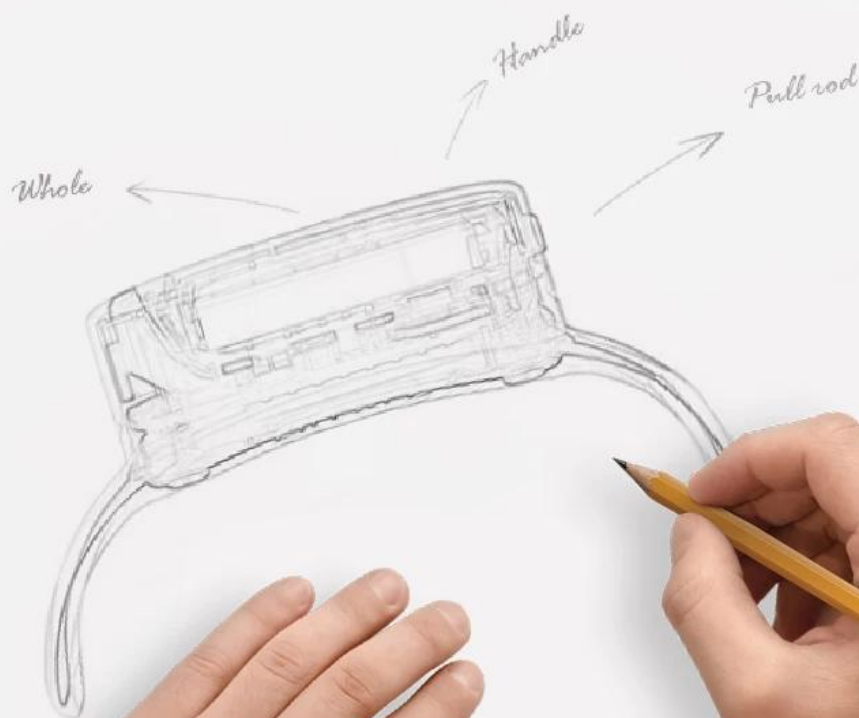

SMART COLLAR

# Autonomous design

A pet intelligent collar independently developed and designed by OMNI intelligent

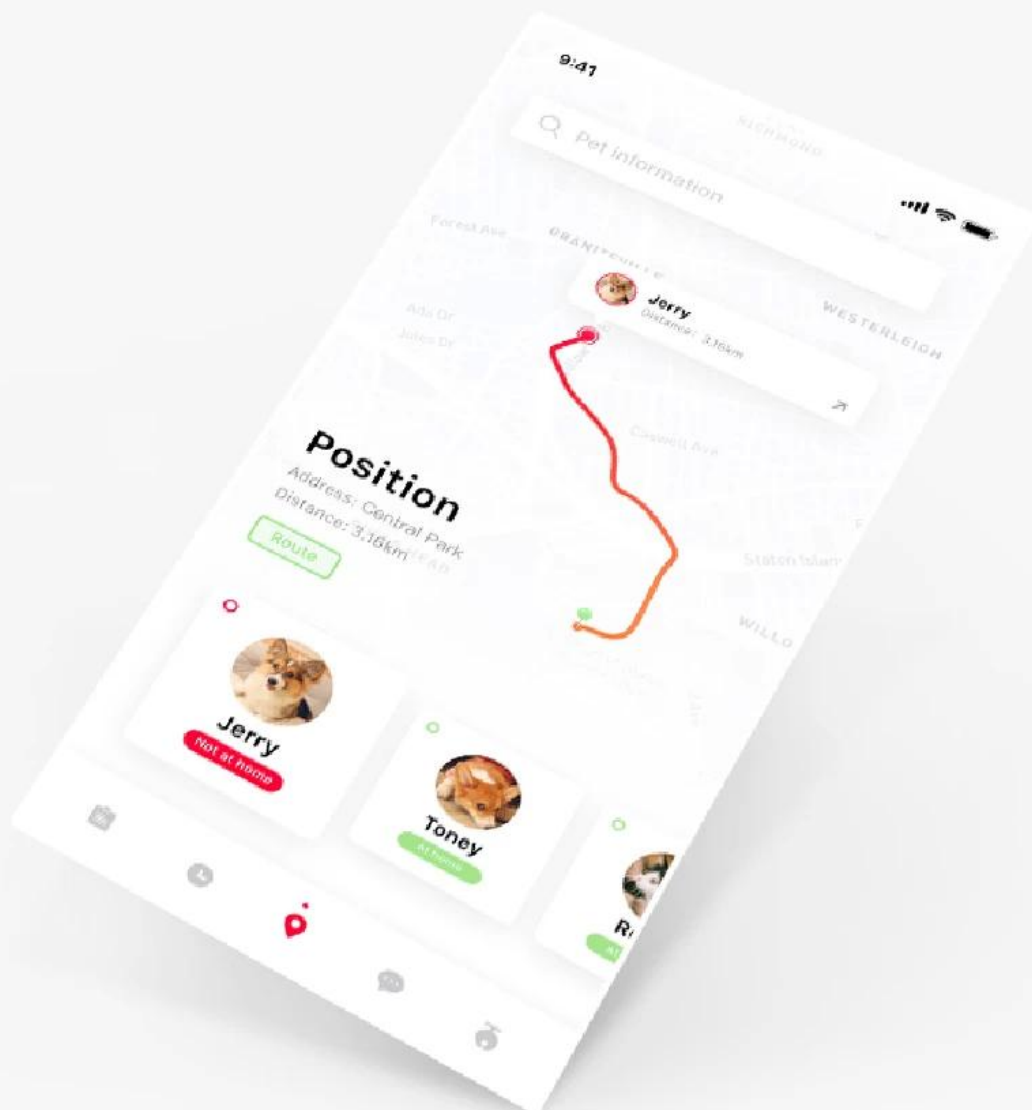

SMART POSITIONING

# GPS positioning

GPS precise positioning, and can set a safe distance, pet out of bounds, alarm alert

MONITORING AROUND

# GPS positioning

GPS precise positioning, and can set a safe distance, pet out of bounds, alarm alert

# Efficient processing of smart chips

High precision, fast real-time precise  
positioning

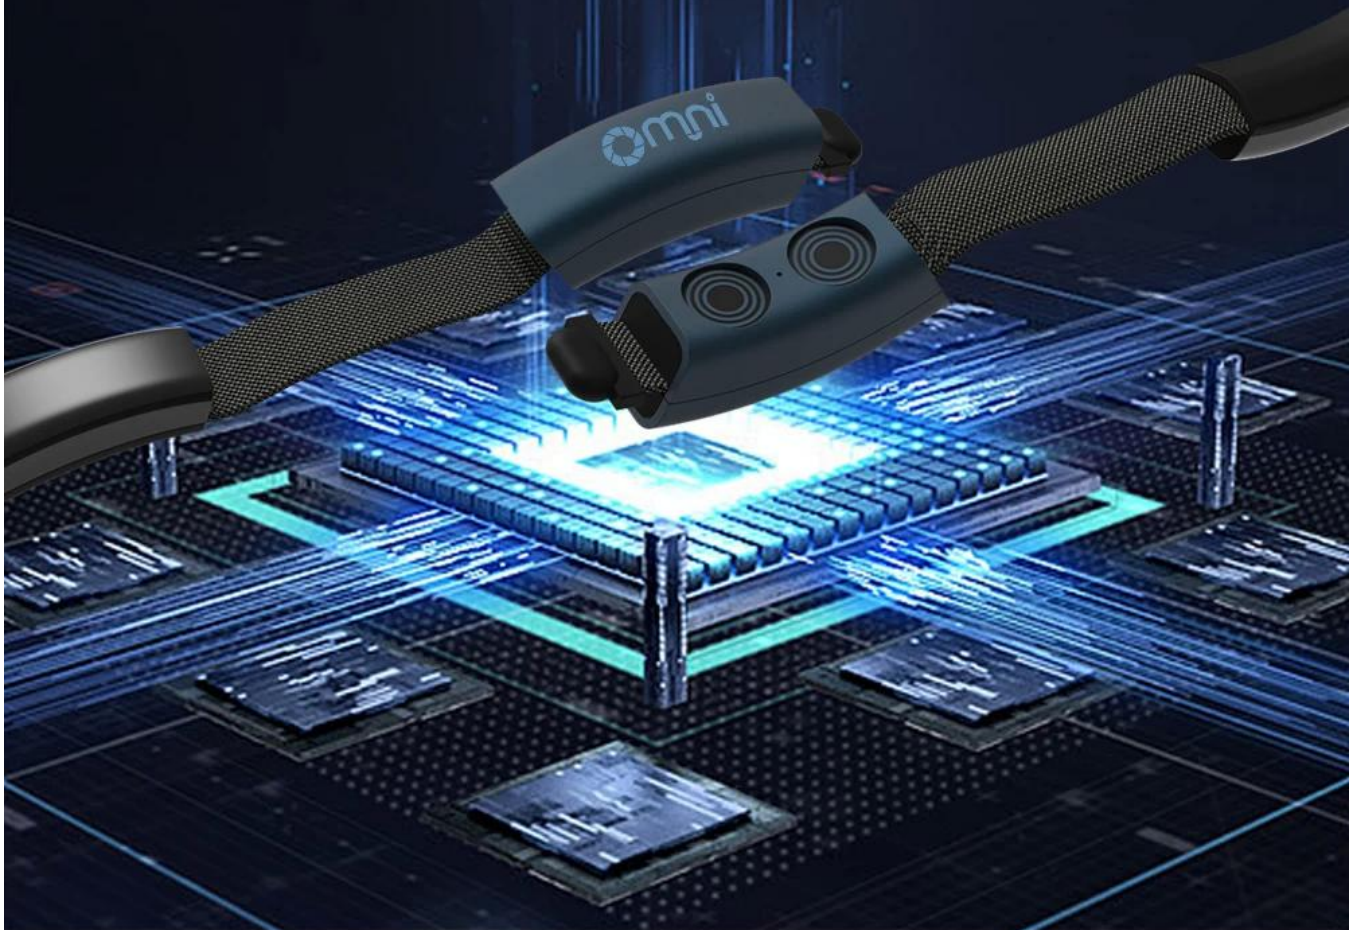

More accurate  
positioning

Faster  
processing

More stable  
platform

MONITORING AROUND

## PA composite

Composite material, wear resistance 3 times more than conventional PET ring, good air permeability, sliding clasp, adjustable according to pet

## ADVANCED BATTERY

# Super power endurance

Two hours of fast charging, a single battery can last for five days, each package contains two batteries
